Introducing a New Generation

Carfit Smart Cargo Solutions is the symbol of the carefree traveller, who wants to live the outdoors in freedom and with all comforts. The brand introduces a new range of car roof boxes ideal for storage and with elevated carrying capacity.

These are strategic and smart products with exclusive and innovative design, for people who love free time, sports, holidays and above all travelling in a comfortable and organised manner.

Carfit Smart Cargo Solutions suppliers test the roof boxes at the TÜV Centre in Helmond (Holland). All tests have been passed successfully to guarantee the construction quality, the great engineering and the resilience of the used products. All Carfit Smart Cargo Solutions products have been realized with complete respect for the environment; the used materials are all recyclables, and the production technologies are all of low environmental impact.

Vehicle Attachment?

Carfit Smart Cargo Solutions conceived and realized a new kind of quick attachment system of the box to the car roof. The system allows a quick and easy assembling process; moreover it keeps the box in complete stability and safety, as proofed by tests at the TÜV Centre.

The quick attachment has been conceived with a very ergonomic and easy to use handle, and includes a practical hand gear for easier closure with its appropriate holding.

The external component, attached to the bars, has a plastic cover for several reasons: to raise the grip of the fixation, to make the box more silent and to protect the car bars (excludes Voyager Pods).

The Range

Voyager

Voyager is a car roof box with an ergonomic and exclusive shape. It has been projected and conceived for a greater use of internal spaces and a lower aerodynamic impact.

Voyager is a roof box suitable for all travellers with a new design, new aesthetic lines and new dimensions. Voyager is available with an embossed silver grey.

Model Description

Voyager 430

Part Number

46 VOY430SIL

Dimensions

Height 400mm

Length 1800mm

Width 800mm

Volume 430 Litres

Capacity 50KG

The Range

Travel Twin

This is a car roof box with a clear and slender shape. This unique and leading-edge design reflects the modern car trends. This is ideal for those who love sports and leisure activities. Travel Twin matches with any kind of car thanks to its glowing metallic silver colour. It is equipped with a practical mechanism that allows the dual opening on both sides.
